

HEALTH REQUIREMENTS

Every animal that comes on the grounds must be compliant with current TAHC rules, and requirements are subject to change. It is recommended that exhibitors' veterinarians check the current requirements before issuing health papers. There will be no exceptions to any health requirements. Health requirement time restrictions must not expire while the animal is on the grounds and documents must be in hand upon arrival.

San Antonio, TX 78219

a. EQUINE: IN-STATE ORIGIN

- i. A current Certificate of Veterinary Inspection, issued within 30 (thirty) days, and a completed VS Form 10-11 showing a negative result to an official EIA test within the previous 12 months OR a valid equine interstate passport or equine identification card and a completed VS Form 10-11 showing negative results to an official EIA test within the previous 6 months. Test document(s) must be in hand and must be shown on the certificate of veterinary inspection.
- ii. Foals under 8 months of age nursing a negative dam are exempt from equine infectious anemia (EIA) testing.
- iii. Fever Tick Requirement - Equine originating in a tick quarantined area must be accompanied by a certificate issued by an authorized representative of the Commission showing the horse is free of infestation and exposure to fever ticks and has been dipped or treated under supervision in an approved dipping solution or treated immediately prior to shipment.
- iv. Scabies Requirement - Equine originating from a scabies quarantined area must be accompanied with certification that the herd of origin is declared free of scabies or exposure to scabies and horses have either been dipped with an approved dip or injected with Ivermectin.

b. EQUINE: OUT-OF-STATE ORIGIN

- i. A current Certificate of Veterinary Inspection, issued within 30 (thirty) days, and a completed VS Form 10-11 showing a negative result to an official EIA test within the previous 12 months OR a valid equine interstate passport or equine identification card and a completed VS Form 10-11 showing negative results to an official EIA test within the previous 6 months. Test document(s) must be in hand and must be shown on the certificate of veterinary inspection. Only test results from USDA approved labs are acceptable.
- ii. Foals under 8 months of age nursing a negative dam are exempt from equine infectious anemia (EIA) testing.
- iii. Scabies Requirement - Equine originating from a scabies quarantined area must be accompanied by an entry permit along with certification that the herd of origin is declared free of scabies or exposure to scabies and horses have either been dipped with approved dip or injected with Ivermectin.
